

CCH Tagetik - SAP Integration

The Unified CPM Platform for SAP Centric Environments

Combining CCH Tagetik with SAP, you can have it all: intuitive, fast, accurate and easy-to-use CPM that addresses the needs of both Finance and IT. Our solution fits into existing SAP technology environments, so management has a world-class unified CPM solution while IT doesn't get bogged down by time-consuming maintenance processes.

CCH Tagetik has been proven to reduce the cost of integration by 30% or more. Best of all, with the CCH Tagetik Connector enabled for SAP, it's easy for business users to pull relevant data from multiple SAP tables without needing to know anything about underlying SAP objects or data structures. More and more companies are complementing their SAP investments by using the power of CCH Tagetik.

Why Companies Choose CCH Tagetik

Powered by
SAP HANA®

Seamless User Experience

Seamless user experience enabled by single sign on to the SAP portal. CCH Tagetik integrates smoothly into your existing IT environment.

Expedites consolidation & Reporting

Expedite financial consolidation and reporting processes with fast data loading. Increase finance and IT productivity through automated integration.

Real-time Analytics & Faster Insights

Real-time financial analytics means you get answers and insights faster with SAP Visual Intelligence and the power of SAP HANA.

Satisfy IT & Finance Requirements

Empower Finance to own and manage analytical models, while freeing up IT resources to work on more value-add activities.

Reduced Integration Costs

Reduce integration costs by 30% with CCH Tagetik Connector enabled for SAP including pre-built ETL processes.

Eliminates Errors, Data Cross-over & ETL Risks

Eliminate errors, data cross-over and ETL risks with built-in business logic, security and control.

“We are an SAP shop here in the US. Our Business Warehouse collects actual results from our SAP ERP systems and we exchange that information back and forth with CCH Tagetik. Once the forecast is done in CCH Tagetik, we can then push that data back up into the Business Warehouse for more detailed comparative reporting - even down to the invoice level.”

David Eady
Global Decision Support Leader,
Propex

Why CCH Tagetik?

Finance Owned: Purpose built to be maintained by Finance, reducing dependency on IT.

Unified CPM Solution: Consolidation, Planning and Reporting in one solution provide confidence in your data.

Reliability: Our implementation team and partners consistently deliver.

Cloud without Compromise: On premise. On cloud. One solution. The choice is yours!

Key Capabilities

Connector enabled for SAP - Reduce integration costs by 30% or more with certified SAP integration intuitively designed for finance users. Automate extracting and mapping data and metadata from SAP ECC FI, and BW tables.

Powered by SAP HANA - Use SAP HANA for advanced analytics on Tagetik data • Deploy Tagetik with SAP HANA as the underlying database • Combine the deep built-in financial intelligence of Tagetik with the scale and power SAP HANA

SAP Portal - Access Tagetik via single sign-on through SAP Portal • Incorporate seamlessly Tagetik processes into users' SAP Portal environment

SAP NetWeaver J2EE Application Server Support - Take advantage of existing IT infrastructure and skills • Reduce technical complexity • Streamline installation and IT support

CCH Tagetik Connector enabled for SAP:

Automates the ETL process - For loading financial data including trial balance, intercompany positions and asset movements as well as metadata (entities, accounts, and other dimensions) with an intuitive wizard and pre-built business logic, security, and audit trail.

Includes pre-built ETL processes - For the SAP FI module.

Empowers Finance Users - With the power of SAP integration, the flexibility to manage it, with an easy to use business layer that shields them from the complexity of SAP object structures.

CCH Tagetik Integration with SAP HANA:

Pre-Built SAP HANA Connector – Automates the generation of a HANA analytical model based on CCH Tagetik dimensionality, data, and security. SAP customers that have invested in HANA technology can easily take full advantage of the powerful analytics capabilities of HANA for financial analytics.

Run CCH Tagetik on SAP HANA - With CCH Tagetik 5, SAP HANA can be the underlying data store as an alternative to Oracle or Microsoft SQL Server. SAP and non-SAP customers alike can run CCH Tagetik on SAP HANA to take advantage of the cutting-edge in-memory technology.

Leverage SAP HANA Investment - SAP HANA invested companies can further extract business value and those who are not yet ready to invest in an enterprise-wide SAP HANA strategy to “test the water” with CCH Tagetik.

OEM Partner for SAP HANA - Establishes a cooperation between SAP and CCH Tagetik with the common goal of further benefiting our customers with the power of SAP HANA technology.
