*“CCH Tagetik is agile, flexible and able to react. The speed of the response and the availability are quite exceptional and that helped us a lot.”*

## PRE-START PREPARATION WAS THE KEY FOR VIVAT'S SUCCESSFUL IMPLEMENTATION OF CCH TAGETIK

### What was it like to implement CCH Tagetik?

*The implementation period was, compared to what we anticipated, rather short. Reporting with CCH Tagetik is now, after the introduction, basically a push of a button. CCH Tagetik is agile, flexible and able to react. The speed of the response and the availability are quite exceptional and that helped us a lot.*

### How was your team prepared?

*I think that the main impact on my team and other people using CCH Tagetik, has been the help prior to implementation, with all the things we had to do in advance of starting. The most positive impact I think is the most obvious one, that we now press a button, and we have our quarterly data.*

### Can you describe the biggest advantages with CCH Tagetik?

*All QRTs are from one system. And one of the biggest advantages is the modular approach CCH Tagetik chooses to implement new legislation. Then there are the new types of CCH Tagetik functionalities: we can look at all the different opportunities that CCH Tagetik has to offer, because CCH Tagetik is always one or two steps ahead of us, which is a good thing.*

ERWIN DODEMONT  
Reporting Manager, VIVAT
